4. The FM01 Décor mould, a complementary addition to any roofline

5. FIN2 and FIN3 illustration

6. FIN 2 and FIN 3 product dimensions

Freefoam's range of Decorative Mouldings enables your roofline to adopt a more stylish appearance. The range includes the Finials, **FIN1, FIN2 and FIN3** and the Décor moulds **FM01, FM02 and FM03**.

FIN1 can be applied to the pitch of the gable, where the two bargeboards join, to give a neat, stylish finish that conceals any unsightly gaps, common to such jobs. Now available in four Woodgrain finishes, Light Oak, Mahogany, Black Ash and Rosewood, the Finials are the ideal Decorative accessory for all Gable ends.

FIN2 and FIN3 are Flat backed finials, chamfered at both sides with a decorative fluted design. They are the ideal solution on traditional properties to create a simple quick decorative cap to the face of the bargeboard at the apex of a roof. Manufactured from tough high impact polystyrene with the look and feel of finely crafted timber but without the maintenance concerns.

FM01, FM02 and FM03 are aesthetic accessories. They can be added to the roofline, i.e. fascia and gable end, to enhance the appearance and give the roofline a more classical feel.

Code	Description	Size	Pack	Available Colours
FIN1	Finial		10	●●●●●●●●●●
FIN2	Finial	900 x 65 x 33(mm)	1	●
FIN3	Finial	1300 x 65 x 33(mm)	1	●
