

## Efficiency - together, we're doing our bit

Spectus PVC-U systems can achieve a Window Energy Rating of band A. Through continuous evaluation and improvements in design and quality testing, we have devised a suite of products that maximises the retention of solar heat gain within the property, whilst minimising any thermal and air loss. And because our systems are designed to provide high levels of energy efficiency, you'll benefit from reducing your carbon emissions and the ability to lower your heating bills.

## Spectus is good for the environment

- Our windows and doors provide an outstanding barrier against heat and noise loss - even in the most extreme weather conditions.
- Windows and doors made from PVC negates the use of timber, protecting the planets trees.
- We recycle our own waste and generate new products whilst still retaining the highest standards in quality of material.
- Our windows and doors do not require painting and therefore don't consume additional harmful materials or generate associated waste.
- Our entire manufacturing process - from production to installation - is confined to the UK and Ireland thereby minimising transportation and fuel consumption from wider exportation.

# THE SPECTUS EFFECT

Energy Window	
	A

The difference is clear to see

# THE SPECTUS EFFECT

Our homes are recognised as being the most significant investment we'll make and whether we're looking to create a sanctuary, an energetic family hub or a stylish home at some point, we'll want to improve that space. Finding a solution that's right, from a provider you can trust is the first step in achieving your vision.

Spectus Window Systems have been designing, extruding and distributing high quality PVC-U window, door & conservatory systems in the UK and throughout Ireland for more than 25 years.

Widely recognised and having the best and most complete product range in the market - Spectus systems have been installed in millions of properties, from the most charming period cottages to the largest modern homes.

Whether your aim is to expand, refurbish or restore your property to its former glory, rest assured, with Spectus Window Systems your investment is in safe hands.

## Conservatories

Spectus' range of conservatories has been designed to cater for any size, shape and age of property. Working closely with you on design and planning, your installer will ensure your chosen conservatory is a seamless addition to your property.

## Windows

Spectus profiles can be combined to create any style of window and meet any functional need. Your windows will be designed, manufactured and installed specifically for your property, to your own finish. What's more, all Spectus windows can achieve a Window Energy Rating of band A, helping you reduce your energy consumption and carbon footprint.

## Doors

Bi-folding, French, Patio. Whatever your preferred style, Spectus doors are an effective way of opening up space and increasing light in your home. And, because they are manufactured to Spectus' exacting standards, security and efficiency are supplied as standard.

Spectus Window Systems, specialists in what they do...

Styles to suit any type of home

Colour to suit any period or imagination

Complete window, conservatory & door systems ensures consistency in style and finish

Window & door functionality to suit any practical need

Protection from thermal and sound loss as standard

We recycle our own waste and generate new products whilst still retaining the highest standards in quality of material.

Brought to you by one of the UK and Ireland's leading PVC-U extruders

All Spectus products come with a 10 year guarantee
